## RETAIL PRICE LIST

OF

## CHOICE NORTHERN GROWN GLADIOLUS BULBS

### DEBUTANTES for 1929

**CASCO** — Similar in color to Baron Hulot but grows better, increases faster, and is earlier. We consider it an improvement.

**KATAHDIN** — Pure white, never showing any pink streaks. Almost invisible lines in throat. Good size flower on a fine spike. Late. Strong grower and good propagator.

**KINEO** — Another good late white that is always white. Slightly more color in throat, but invisible except at close range. Growth and propagation excellent.

**SEBAGO (P)** — Pink and yellow beautifully blended into what is almost a self color. Flowers medium size, well placed on a slender spike. The tallest Glad in our field and always straight.

Any of the above \$1.00 each, \$10.00 per dozen, postpaid.

Dozen may consist of one or more varieties.

**BARGAIN COLLECTION** — 10 Bulbs each of 10 varieties, 100 Bulbs in all, our selection, varieties separate and labeled, postpaid east of Mississippi River, \$2.50; west of the River and in Canada \$3.00.

**MIXTURE** — \$1.75 per hundred, postpaid in New England only.

### READ BEFORE ORDERING

**TERMS AND CONDITIONS:**— Cash with all orders. Stock offered subject to prior sale. Prices cover bulbs that are one inch or more in diameter, and guaranteed to be healthy and true to name. We will replace any found otherwise, if claim is made during the present calendar year. We never substitute without permission; but many people prefer substitution to a partially unfilled order. Please state your preference, to help us in the prompt execution of your order. The sooner you order after receiving this Price List, the more likely you will be to get just what you want. Many choice varieties are still in small supply. Excepting Collections and Mixtures above, we prepay shipments to points in United States and Canada when order amounts to \$2.50 or more. Prices are quoted by the dozen. Single bulbs will be supplied at one-tenth the dozen rate, no single item to be less than 15 cents. Six at one-half the dozen rates. Varieties of Primulinus origin are marked (P).
